

Exhibit 3.3: Relative Average Achievement in Comprehension Processes

Assessed Fourth Grade Students at the End of the School Year

☒ Assessed one year later than originally scheduled

Country	Overall PIRLS Average Scale Score	Retrieving and Straightforward Inferencing		Interpreting, Integrating, and Evaluating		Difference	
		Average Scale Score	Difference from Overall PIRLS Score	Average Scale Score	Difference from Overall PIRLS Score	Process Score Lower than Overall PIRLS Score	Process Score Higher than Overall PIRLS Score

() Standard errors appear in parentheses. Because of rounding some results may appear inconsistent.
 See Appendix A.2 for population coverage notes 1, 2, and 3. See Appendix A.5 for sampling guidelines and sampling participation notes †, ‡, and ≡.

Ψ Reservations about reliability because the percentage of students with achievement too low for estimation exceeds 15% but does not exceed 25%.

☒ Reservations about reliability because the percentage of students with achievement too low for estimation exceeds 25%.

Issues identified in Albania's data quality led to reduced comparability and framework coverage.
